Attorney Docket No. 1700.80A

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Handwritten: #4 3.20.01

Targett, Jr., et al.
Serial No. 09/668,811
Filed: September 23, 2000
For: PRESSURE VESSEL WITH COMPOSITE SLEEVE

Assistant Commissioner for Patents
Washington, DC 20231

February 14, 2001

**INFORMATION DISCLOSURE STATEMENT
CITATION UNDER 37 C.F.R. 1.97**

Sir:

Attached is a list of documents on Form PTO-1449. It is requested that the Examiner consider these documents and officially make them of record in accordance with the provisions of 37 C.F.R. § 1.97 and Section 609 of the MPEP.

All items listed were cited in parent Application No. 09/260,209, filed March 1, 1999. Because the benefit of this application was claimed under 35 U.S.C. 120, no copies need to be furnished in accordance with 37 C.F.R. § 198(d); however, copies will be furnished upon request.

This Information Disclosure Statement is filed under 37 CFR § 1.97(b) before the latter of three months after the U.S. patent application filing date or the first Office Action on the merits. Accordingly, no fee or § 1.97(e) Statement is required.

CERTIFICATE OF MAILING

I hereby certify that this correspondence is being deposited with the United States Postal Service as first-class mail in an envelope addressed to: Assistant Commissioner for Patents, Washington, DC, on February 14, 2001.

Philip Summa

Art Unit: 1723

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 17-32, drawn to self sealing vessel, classified in class 220, subclass 581.
- II. Claims 33-35, drawn to a system for microwave assisted chemistry, classified in class 250, subclass 428.

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the cap and cylinder both comprising fluorinated hydrocarbons as required by the subcombination. The subcombination has separate utility such as for a reaction chamber placed within a electromagnetic field other than microwave radiation.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1723

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Savage whose telephone number is (703) 308-3854. This examiner can normally be reached from Monday through Friday from 7:00 AM to 3:30 PM.

The fax numbers for this Group are as follows:

(703) 305-3599 for after final amendments;

(703) 305-7718 for regular amendments;

(703) 305-3602 for un-official papers, e.g., proposed claim amendments for discussion during personal or telephone interviews.

Matthew O. Savage
